## THE FINE PRINT

We are very excited to have recently partnered with a US based company\*. This affiliation makes us part of the biggest global matchmaking service for Jewish singles. We will be using the WAM software and billing system and that's why we are quoting our monthly membership fees in US\$. The fee will be converted based on the exchange rate at the time of the transaction and shown on your credit card statement in Australian dollars.

We remain a fully Australian based community organisation with Australian matchmakers and a local office.
